FRIDAY 22ND SEPTEMBER A FOOD, WINE & MUSIC MATCHING DINNER AT DI LUSSO ESTATE

Let's explore the idea that wine AND music BOTH enhance the dining experience! You've no doubt heard that you can enhance your dining experience if you serve a compatible wine. But have you heard that leading chefs and sommeliers are stretching this 'cross-modal' concept – claiming that music can have a similar effect on your dining experience? During our light-hearted, enjoyable and hopefully instructive five-course dinner, we are going to 'research' this idea. Each course will be presented with three of our wines, as in the background we listen to three different pieces of music. At the end of each course we'll see how close we come to consensus in our choice of the 'best' joint food-wine-music experience. And then see if we can agree on some reasons for our decision.

Where: Di Lusso Estate Cellar Door, 162 Eurunderree Lane
